Sweetcorn	YY	YY	Y					Y	YY	YYY	YYY	YYY	98-112 days
Tomato	<b>Y Y Y</b>	Y						<b>Y Y</b>	<b>Y Y</b>	YYY	<b>YYY</b>	<b>Y Y Y</b>	60-85 days

## 7 PREPARE

The better the soil, the better your plants will grow. If you are starting with an existing garden bed dig in organic matter like **Tui Sheep Pellets** and **Tui Compost** to your soil.

## **PLANT**

Plant in a planting mix specifically designed for what you are planting like **Tui Vegetable**Mix for veges. Check seed packets or plant labels for individual planting instructions. The best times to plant are early in the morning or late in the day, so the plants aren't exposed to the hot sun straight away.

## **NOURISH**

Feed your plants and they will feed you. Plants use nutrients from the soil as they grow, so replenishing the nutrients ensures your plants grow and flourish to their full potential. Select a fertiliser specially blended for your crop like Tui Vegetable Food or use an all purpose variety, such as Tui NovaTec Premium fertiliser.
